AUDITOR'S REPORT ORIGINALLY ISSUED IN TURKISH)

AUDITOR'S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I of Section Three)

To the General Assembly of Hayat Finans Katılım Bankası Anonim Şirketi;

Introduction

We have reviewed the consolidated balance sheet of Hayat Finans Katılım Bankası Anonim Şirketi ("the Bank") and its consolidated subsidiary (collectively referred to as "the Group") at 30 September 2026 and the related consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the nine-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial information in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Financial Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by the aforementioned regulations. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying consolidated financial information does not present fairly in all material respects the financial position of Hayat Finans Katılım Bankası Anonim Şirketi and its consolidated subsidiary at 30 September 2026 and its financial performance and its cash flows for the nine-month-period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Seven, is not consistent with the reviewed consolidated financial statements and disclosures in all material respects.

Additional Paragraph for Convenience Translation:

BRSA Accounting and Financial Reporting Legislation explained in detail in Section Three differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of 30 June 2026. Accordingly, the accompanying consolidated financial statements are not intended to present fairly the consolidated financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

AS Tüketim Malları Ticaret A.Ş.	32	0.50%	32	-
Total	**6,500**	**100.00%**	**6,500**	-

5. Explanations of the Parent Bank's services and field of operations

The Parent Bank's field of operations includes corporate and commercial banking, international banking services, and retail banking and credit card services. The Parent Bank's core business is operating in accordance with the principles of interest-free banking as a digital participation bank by collecting funds through current and profit/loss sharing accounts and lending such funds to its customers.

As of 30 September 2026, the Parent Bank is operating with 335 personnel (31 December 2025 – 306). Summary of some of the Bank's operations described in the Articles of Association are as follows:

- To collect funds through "Current Accounts" and "Profit/Loss Sharing Accounts" and special fund pools in line with the regulations,
- To allocate funds to the economy and provide all kinds of cash, non-cash loans within the principles of non-interest banking,
- To offer financial and operational leasing,
- To handle all kinds of deposits and payments, including travelers' checks, credit cards and other payment instruments, provide member business services, consulting, advisory,
- To purchase financial instruments on money and capital markets in cash or installments, sell and mediate the sale and trade on the stock exchange in accordance with legislation and principles of non-interest banking,
- To act as a representative, deputy or agent for corporations and enterprises (including insurance companies), to provide private pension intermediary services,
- Providing investment consultancy, wealth management and financial planning consultancy on management, technical and financial issues,
- Regarding banking activities by obtaining the necessary permits; To provide support services to its subsidiaries, other banks, financial institutions, financial technology companies and other companies,
- To buy and sell money market instruments spot or forward, and to act as an intermediary in their buying and selling,
- To carry out all kinds of foreign exchange transactions, to buy, sell, import and export gold, silver, other precious metals, precious stones and metals, to be a member of the precious metal and metal exchanges that have been established or to be established, and to trade in these exchanges,
- Domestic or foreign companies and organizations related to the purpose and scope of the business; to act as a representative, proxy and agency and to engage in all kinds of commission works,
- To provide social aid in accordance with the principles and principles of deposit and participation banking

The Parent Bank's activities are not limited to the list above. If another activity is decided to be beneficial to the Parent Bank, the activities must be recommended by the Board of Directors, approved by the General Assembly and authorized by relevant legal authorities after whom it also needs to be approved by the Ministry of Trade since it constitutes an amendment of the Article of Association. Decisions that have been approved through all these channels will be included to the Article of Association.

6. Current or likely actual legal barriers to immediate transfer of equity or repayment of debts between Bank and its subsidiaries:

None.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES IN THE RELATED PERIOD

1. Explanations on basis of presentation

The preparation of the consolidated financial statements and related notes and explanations in accordance with the Turkish accounting standards and regulation on accounting applications for banks and safeguarding of documents

The consolidated financial statements have been prepared in accordance with the provisions of the Regulation on the Procedures and Principles Regarding Accounting Practices and Document Retention of Banks, published in the Official Gazette dated November 1, 2006, and numbered 26333, in relation to the Banking Law No. 5411, and other regulations, communiqués, explanations, and circulars published by the Banking Regulation and Supervision Agency ("BRSA") regarding accounting and financial reporting principles, and, in matters not regulated by these, the provisions of Turkish Accounting Standard 34 ("TAS 34"), Interim Financial Reporting Standard, and Turkish Financial Reporting Standards ("TFRS"), enacted by the Public Oversight, Accounting and Auditing Standards Authority ("KGK") (all in accordance with the "BRSA Accounting and Financial Reporting Legislation"). However, IAS 29 "Financial Reporting in High-Inflation Economies" within IFRS does not apply to banks and financial leasing, factoring, financing, savings financing, and asset management companies, as explained below

The format and content of the consolidated financial statements to be disclosed to the public, as well as their explanations and footnotes, have been prepared in accordance with the "Communiqué on Financial Statements to be Disclosed to the Public by Banks and the Explanations and Footnotes Related Thereto" and the "Communiqué on Public Disclosures Regarding Risk Management by Banks," published in the Official Gazette dated June 28, 2012, and numbered 28337, and the communiqués that add to and amend these. The Bank maintains its accounting records in Turkish Lira, in accordance with the Banking Law, the Turkish Commercial Code No. 6102, and Turkish tax legislation. Except for financial assets and liabilities shown at fair value, the unconsolidated financial statements have been prepared in Turkish Lira based on the historical cost method.

Unless otherwise stated, the amounts in the consolidate financial statements and related explanations and footnotes are expressed in Million Turkish Lira. In accordance with the amendment to the "Communiqué on Financial Statements to be Disclosed to the Public by Banks and Related Explanations and Footnotes" issued by the Banking Regulation and Supervision Agency (BRSA) on 30 April 2026, the presentation currency of the financial statements has been changed from Thousand Turkish Lira (Thousand TL) to Million Turkish Lira (Million TL). In parallel with this change, comparative financial information from the previous period is also presented in Million TL to ensure comparability of the consolidated financial statements.

Accounting policies and valuation principles applied in the preparation of consolidate financial statements

The consolidated financial statements have been prepared on the historical cost basis except for the financial instruments at fair value through profit or loss, and the financial assets and liabilities at fair value through other comprehensive income that are measured at fair values.

The accounting policies and valuation principles applied in the preparation of consolidated financial statements, are determined and applied in accordance with regulations, communiqués, explanations and circulars on accounting and financial reporting principles published by the BRSA, and in case where there is no special regulation made by the BRSA, in accordance with principles in the context of TFRS. The preparation of the consolidated financial statements according to BRSA Reporting and Accounting Legislation requires the Parent Bank's management to make estimates and assumptions related to assets and liabilities in the balance sheet and contingent issues as of the balance sheet date. Such estimates and assumptions include the fair value calculations of the financial instruments, provisions for the lawsuits, deferred tax assets and liabilities, impairment of the financial assets and revaluation of immovables and reviewed periodically and when adjustments are considered necessary, they are reflected in the consolidated financial statements. The assumptions and estimates used are explained in the related notes. Accounting policies and evaluation principles in preparing consolidated financial statements are determined and applied as per the principles stated in "BRSA Accounting and Financial Reporting Legislation" and consistent with the accounting policies applied for 31 December 2025 financial statements.

Public Oversight Accounting and Auditing Standards Authority ("POA"), with its announcement dated 23 November 2023, applied that the financial statements of businesses applying Turkish Financial Reporting Standards for the annual reporting period ending on or after 31 December 2023 should be prepared in accordance with the Financial Reporting in Hyperinflationary Economies ("TAS 29"), however, institutions or organizations authorized to regulate and supervise in their own fields may determine different transition dates for the applying of TAS 29. Based on this announcement of POA, BRSA, with its decision dated December 12, 2023 and numbered 10744, decided that the financial statements dated December 31, 2023 of banks and financial leasing, factoring, financing, savings financing and asset management companies should not be subject to the inflation adjustment required within the scope of TAS 29. In accordance with the BRSA's decision dated January 11, 2024 and numbered 10825, it has been decided that banks and financial leasing, factoring, financing, savings financing and asset management companies will be applied inflation accounting as of January 1, 2025. Finally, BRSA's decision dated January 11, 2024 and numbered 10825, it has been decided that banks and financial leasing, factoring, financing, savings financing and asset management companies would not apply inflation accounting in 2025. Accordingly, the Parent Bank has not applied the inflation accounting required by TAS 29 in its consolidated financial statements for the as of 30 September 2026.

Changes in accounting estimates, errors and classifications

If changes in accounting estimates are related to only one period, they are applied in the current period in which the change is made, and if they are related to future periods, they are applied both prospectively and in the future periods. Significant accounting errors are applied retrospectively, and prior period financial statements are restated. There were no significant changes in the accounting estimates of the Group in the current year. Comparative information is rearranged when deemed necessary in order to comply with the presentation of the current period financial statements. The Group has not made any changes in the presentation of the financial statements in the current period. The Group's financial statements are prepared comparatively with the previous period in order to enable the determination of financial position and performance trends.

2. Explanations on strategy of using financial instruments and foreign currency transactions

The Group follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Group's exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Group's equity. The assets-liabilities committee (ALCO) manages the assets and liabilities within the trading limits on the level of exposure placed by the Executive Risk Committee.

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates to Turkish Lira and valuation differences of foreign currencies have been recognized in the income statement under the net foreign exchange income/expense account. The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement.

3. Explanations on forward transactions and option contracts and derivative instruments

The Group's derivative transactions are classified, measured and accounted in accordance with the provisions of "TFRS 9 Financial Instruments". Fair values are used in the initial recording of derivative transactions and are valued at fair values in the periods following their recording. Liabilities and assets arising from derivative transactions are recorded in the off-balance sheet accounts based on the contract amounts. Derivative transactions are valued at fair value in the periods following their recording and are shown in the balance sheet in the "Fair Value Difference of Derivative Financial Assets Reflected through Profit and Loss" or "Fair Value Difference of Derivative Financial Liabilities Reflected through Profit and Loss Portion" accounts, depending on whether the fair value is positive or negative. These amounts shown in the balance sheet reflect the fair values of derivative products. Differences in fair value as a result of the valuation are accounted for in the "Profit/loss from derivative financial transactions" accounts in the income statement.

4. Explanations on profit share income and expense

Profit share income is reflected in the records using the internal yield ratio method according to the accrual basis over the funds used, and it is accounted for in the dividend income account in the financial statements. When applying the internal yield method, the Group amortizes the fees included in the calculation of the effective profit ratio and the transaction costs over the expected life of the financial instrument. If a financial asset suffers a credit impairment and is classified as non-performing receivables, profit accruals and rediscounts are calculated for the relevant customers in accordance with the TFRS 9 Financial Instruments Standard. The Group calculates expense rebates on profit/loss participation accounts according to the unit value calculation method and classifies these amounts in the "Collected Funds" account item on the balance sheet.

5. Information on Associates and Subsidiaries and Entities Under Common Control

The Communiqué Amending the "Communiqué on the Turkish Accounting Standard 27 (TAS 27) Concerning Individual Financial Statements" published in the Official Gazette dated April 9, 2015 and numbered 29321 came into effect for the accounting periods after January 1, 2016. While it is stated that a business that prepared its individual financial statements before the amendment can account for investments in its subsidiaries, joint ventures and associates at cost or in accordance with TFRS 9 Financial Instruments standard, with the amendment, while the business prepares its individual financial statements, its investments in subsidiaries, joint ventures and affiliates are accounted for using the equity method also has the opportunity to be accounted for.

Titles, locations of the headquarters, main operations and Group's shares relating the consolidated entities are as follows:

Title	Address (City/Country)	Main Operation	Current Period Share (%)	Prior Period Share (%)	Consolidation method
Hayat Varlık Kiralama A.Ş.	İstanbul/Türkiye	Financial Institution	100.00	-	Full consolidation

Parent Bank and the subsidiaries, the financial tables of which are consolidated along with the Parent Bank, are collectively referred as "the Group".

Consolidation basis of subsidiaries

Subsidiaries are entities whose capital and management are directly or indirectly controlled by the Parent Bank. Subsidiaries are consolidated by the full consolidation method, within the framework of significance on the basis of operational outcomes, assets sizes and equity sizes. The financial statements of the relevant subsidiaries are included in the consolidated financial statements as of the date that control is transferred to Parent Bank.

Control denotes any of the following circumstances: the Parent Bank directly or indirectly through subsidiaries has over 50% of the voting rights or, dominance over the voting rights as described afore does not exist but the Parent Bank owns the preferred shares, or; the Parent Bank has voting rights appropriating more than 50% of all voting rights due to the agreements signed with other shareholders, or; the Parent Bank has the authority to manage the operational and financial policies of the entity due to certain arrangements or agreements, or; the Parent Bank has the power to influence the majority of the votes within the Board of Directors or any other executive organ vested with similar rights, or; the Parent Bank by any means has the power to appoint or dismiss the majority of the Board of Directors.

In accordance with the full consolidation, all of the assets, liabilities, income, expense and off-balance sheet liabilities of the subsidiaries are consolidated with the assets, liabilities, income, expense and off-balance sheet liabilities of the Parent Bank. The carrying value of the Group's investment in each subsidiary is offset with the cost value of the subsidiary's capital owned by the Group. Balances regarding the transactions between the subsidiaries in the scope of the consolidation and the unrealized gains/losses are reciprocally offset. Minority shares within the net income of the consolidated subsidiaries are determined provided that the net income of the Group shall be calculated, and these minority shares are presented as a separate item in the income statement. Minority shares are presented under the equity in the consolidated balance sheet.

In the case where the accounting policies implemented by the subsidiary are different than the Parent Bank, the accounting policies are reconciled.

6. Explanations on fees and commission income and expenses

Other than fees and commission income and expenses received from certain banking transactions that are recorded as income or expense in the period they are collected, fees and commission income and expenses are recognized in the income statement depending on the duration of the transaction. Except for fees and commissions that are integral part of the effective profit share rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers.

Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting throughout the service period.
In accordance with the provisions of TAS, commission and fees collected in advance for loans granted are deferred and reflected to the income statement by using the internal rate of return method. Unearned portion of the commission and fees relating to the future periods are recorded to the "Unearned Revenues" account under "Other Liabilities" on the balance sheet.

7. Explanations on financial assets

The Group categorizes its financial assets as “Fair Value Through Profit/Loss”, “Fair Value Through Other Comprehensive Income” or “Measured at Amortized Cost”. Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated January 19, 2017 by the Public Oversight Accounting and Auditing Standards Authority (POA). Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets at Fair Value Through Profit or Loss", transaction costs are added to fair value or deducted from fair value.

The Group recognizes a financial asset in the financial statements only when it becomes a party to the contractual terms of a financial instrument. During the initial recognition of a financial asset, the business model determined by Group management and the nature of contractual cash flows of the financial asset are taken into consideration.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit/loss” are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and profit share at certain date; that are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. Equity securities classified as financial assets at fair value through profit/loss are recognized at fair value.

Financial assets at fair value through other comprehensive income

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial assets with contractual terms that lead to cash flows are solely payments of principal and profit share at certain dates, they are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Profit share income calculated with effective profit share rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. “Unrealized gains and losses” arising from the difference between the amortised cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity.

Securities representing the share in the capital classified as financial assets at fair value through profit or loss are recognized at fair value. Exceptionally, cost may be an appropriate estimation method for determining fair value. This is only possible if there is not enough recent information on the measurement of fair value or if the fair value can be measured with more than one method and the cost reflects the fair value estimation among these methods in the best way.

During initial recognition an entity can choose in an irrevocable was to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in the other comprehensive income. In the case of this preference, the dividend from the investment is taken into the financial statements as profit or loss.

Financial assets measured at amortized cost

In the case that a financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and that the contractual terms of the financial asset give rise to cash flows on specified dates that are solely payments of principal and profit share on the principal amount, the financial asset is classified as financial asset measured at amortized cost.

Financial Assets Measured at Amortized Cost; consists of financial assets, excluding loans and receivables, that are held with the intention of keeping until maturity and that the necessary conditions to be held until maturity, including funding ability, are met, have fixed or determinable payments and fixed maturities. Financial Assets Measured at Amortized Cost are first recorded at their acquisition cost and subsequently valued at their discounted cost using the internal yield method. Profit share income related to Financial Assets Measured at Amortized Cost is reflected in the income statement.

Derivative financial assets

Payables and receivables arising from the derivative instruments are recorded in the off-balance sheet accounts at their contractual values.

Derivative transactions are valued at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, the fair value amounts are classified as "Derivative Financial Assets Designated at Fair Value Through Profit or Loss." The fair value differences of derivative financial instruments are recognized in the income statement under trading profit/loss line in profit/loss from derivative financial transactions. The fair value of derivative instruments is calculated by taking into account the market value of the derivatives or by using the discounted cash flow model.

Loans

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Profit Share Rate (internal rate of return) Method".

8. Explanations on impairment of financial assets

In accordance with the "Regulation on the Procedures and Principles for the Classification of Loans and the Provisions to be Set Aside for These" published in the Official Gazette dated 22 June 2016 and numbered 29750, the Bank started to allocate impairment provisions in accordance with the provisions of TFRS 9 after it started operating. Since the Group does not have sufficient historical data to create internal models for TFRS 9 expected credit loss calculation, the Bank prepared its assumptions and methodologies based on expert opinion. In addition, within the scope of TFRS 9 Standard, the Group has developed macroeconomic models to reflect past events, current conditions and estimates of future economic conditions and included them in the expected credit loss provision calculations. Expected credit loss is a probability calculation that is used to predict the credit losses that will occur if the loan payments required under the contract are not made on time and is weighted according to the default risks of the loans. Calculation of expected credit losses consists of three main parameters: Probability of Default, Loss Given Default, and Default Amount.

Probability of Default (PD), refers to the probability that the loan will default within a certain time period. The bank uses two different default probability values when calculating expected credit loss in accordance with TFRS 9:

- 12-Month probability of default: Estimation of the probability of default within 12 months after the reporting date.
- Lifetime probability of default: Estimation of the probability of default over the expected life of the financial instrument.

Since the Group does not have historical data that could create a PD model within the scope of TFRS 9, it determined the PD value using participation banks' default data.

Loss Given Default (LGD), is the economic loss of the borrower arising from the loan in case of default and is expressed as a ratio. “Working LGD” rate refers to the LGD rate that corresponds to the period between the date of transfer to follow-up accounts for non-performing receivables and the period in which ECL calculation is made. LGD rate for all receivables except non-performing receivables is 45%

Exposure amount at Default (EAD), refers to the balance disbursed in cash loans as of the report date. For non-cash loans and commitments, it is the value calculated by applying the loan conversion rate. The credit conversion rate corresponds to the loan conversion rate used in the adaptation of possible risk increases between the current date and the default date.

For non-cash loans, credit conversion ratio is used in EAD calculation. The cash conversion rate of a non-cash loan indicates the rate at which compensation will occur. For the cash conversion rates of non-cash loans, the risk weighting given in the BRSA Circular No. 2016/1 dated 28.03.2016 was taken into account.

The Group has established a 3-stage' impairment model based on the change in credit quality after initial recognition:

Stage 1 covers financial instruments with no significant increase in credit risk from initial recognition to the next reporting period or with low credit risk at the reporting date. For these assets, a 12-month expected credit loss is recognized. In the 12-month expected credit loss provision calculation for Stage 1 loans, the weighted average of annual default rates calculated on the 5-year loan and non-performing receivables data publicly disclosed by participation banks starting from the period in which the PD calculation is made is used as the probability of default (PD) parameter. While determining the relevant period, the minimum historical observation period mentioned in the "Guide on Evaluation, Validation and Corporate Governance of Internal Rating-Based Approaches and Advanced Measurement Approach" was taken into consideration.

Stage 2 covers financial assets for which there has been a significant increase in credit risk since initial recognition but for which there is no objective evidence of impairment. For these assets, lifetime expected credit losses are recognized. In this context, these are the basic issues taken into account in determining whether a financial asset's credit risk has increased significantly and is transferred to Stage 2. In the lifetime expected loan loss provision calculation for stage 2 loans, the weighted average of stage 2 provision rates calculated over the 5-year close monitoring provision amounts announced to the public by participation banks starting from the period in which the PD calculation is made is used as the PD parameter.

Stage 3 includes financial assets for which there is objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized.

The Group periodically evaluates the provisions set aside for loans and other receivables in accordance with TFRS 9, based on their results, and makes updates to the basketing rules and the parameters used in the calculation of the relevant provision balances, if deemed necessary, as a result of these evaluations.

If the credit risk on a financial instrument has not increased significantly since it was first recognized in the financial statements, the Group classifies the financial asset in question as the first stage and adjusts the loss allowance for the financial instrument at an amount equal to the 12-month expected credit losses at each reporting date.

The purpose of impairment is to recognize lifetime expected losses in the financial statements for all financial instruments with significant increases in credit risk since their initial recognition, individually or collectively, by taking into account all reasonable and supportable information, including forward-looking ones.

12-Month Expected Loss Provision (Stage 1) These are financial assets that do not have a significant increase in credit risk when they are first included in the financial statements or thereafter, and the number of days of delay does not exceed 30 days.

Credit risk impairment provision for these assets is recognized as 12-month expected credit loss provision. It is valid for all assets unless there is a significant deterioration in credit quality. The 12-month expected loss values (within 12 months after the reporting date or sooner if the life of a financial instrument is less than 12 months) are part of the lifetime expected loss calculation.

Significant Increase in Credit Risk (Stage 2) if there is a significant increase in credit risk after it is first included in the financial statements, the relevant financial asset is transferred to the 2nd Stage. Credit risk impairment provision is determined according to the lifetime expected credit loss provision of the relevant financial asset.

The Group classifies financial assets as stage 2, taking into account the following criteria:

- Loans with overdue days exceeding 30 days but not exceeding 90 days,
- Data received from the early warning system and the evaluation to be made by the Group in this case,
- The Group’s management concludes that there is a significant increase in the credit risk as a result of the comparison with the default risk at the beginning of the loan to determine whether the customer's risk of default has increased significantly since the initial definition of the loan,
- In loans whose repayment is entirely dependent on collateral, the net realizable value of the collateral falls below the receivable amount.

Default (Stage 3/Special Provision) According to the Group’s internal procedures, the relevant financial asset is within the scope of default if the following situations exist:

- Loans that are over 90 days overdue from the last installment date (In this case, the customer is followed up on the 91st day).
- Loans that are restructured and classified as live receivables and whose payment is delayed for more than 30 days within the one-year monitoring period (In this case, the customer is monitored on the 31st day).
- Loans that were restructured and classified as live receivables and were restructured at least once within a one-year monitoring period.

Expected Credit Loss evaluation is done on the basis of the existence of the hard collateral. In case the file has hard collateral, for each customer at least 2 and at most 3 scenerio will be applicable. The independent value of the collateral, court value, if there is payment protocol the payment plan, legal statüs of the debtor, the stiuation in the court file are considered while calculating the ECL.

9. Explanations on offsetting of financial assets and liabilities

Financial assets and liabilities are offset, and the net amount is reported in the balance sheet when the Group has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

10. Explanations on sale and repurchase agreements and lending of securities

Central Bank of the Republic of Türkiye ("CBRT") made some changes on orders for open market transactions ("OMT") and prepared an additional frame contract for participation banks in order to present rent certificates to open market operations of CBRT in accordance with the principles of participation banks. According to this agreement, a new type of transaction was formed which enables participation banks to resell or repurchase rent certificates on their portfolio to CBRT when they need funding or in attempt to evaluate the excess liquidity. In this context, the Treasury Lease Certificates included in the assets of the participation banks of the Central Bank of the Republic of Türkiye are subject to the sale process with the promise of repurchase and can carry out API transactions and obtain funds in this way.

11. Explanations on assets held for sale and discontinued operations and related liabilities

A non-current asset classified as held for sale (or disposal group) is the lower of its book value and fair value less costs to sell, in accordance with the provisions of "TFRS 5 Turkish Financial Reporting Standard on Assets Held for Sale and Discontinued Operations". In order to classify an asset as held for sale, the sale should be highly probable, and the asset should be available for immediate sale in its present condition. Highly saleable condition requires a plan by the management regarding the sale of the asset together with an active program for the determination of buyers as well as for the completion of the plan. Also, the asset should be actively in the market at a price consistent with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan. Various events and conditions may extend the completion period of the disposal over one year.

A discontinued operation is a part of the Group business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Group has no discontinued operations.

12. Explanations on goodwill and other intangible assets

Goodwill and other intangible assets are recorded at cost in accordance with TAS 38 "Turkish Accounting Standards for Intangible Assets". As of the balance sheet date, there is no goodwill in the financial statements of the Bank. The Group's intangible assets consist of softwares, capitalized information technology services and intangible rights. Intangible assets are amortised by the Group over their estimated economic useful lives in equal amounts on a straight-line basis. Useful lives of the Group's software have been determined as 3 to 4 years and other intangible assets' useful lives have been determined as 15 years.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the TAS 36 "Turkish Accounting Standard for Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

13. Explanations on tangible assets

Fixed assets are stated at cost adjusted for inflation less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets.

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than one year as of the balance sheet date.

If the recoverable amount (the higher of value in use and fair value) of a tangible asset is less than it is carrying value, impairment loss is provided and the carrying value is written down to its recoverable amount.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repair costs are capitalized if the expenditure increases economic life of the asset; other repair costs are expensed as incurred.

The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product, or to decrease the costs.

14. Explanations on leasing transactions

The Group assesses whether the contract has a lease qualification or include a lease transaction.

(a) The right to obtain almost all of the economic benefits from the use of the leased asset and,
(b) Whether the leased asset which has the right to manage its use is evaluated

The right of use asset and lease liability are measured at the present value of the lease payments in accordance with TFRS 16 “Leases” standard. Lease payments are discounted using the Group’s alternative borrowing profit share rate.

Right of use assets

The Group reflects the existence of a right of use and a lease liability to the financial statements at the date the lease is commenced.

The right to use asset is recognized first by cost method and includes the following:

(a) The first measurement amount of the lease liability,
(b) The amount obtained by deducting all rental incentives received from all lease payments made at or before the date of the rental.

When the Group applying cost method, the existence of the right of use:
(a) Accumulated depreciation and accumulated impairment losses are deducted and
(b) Measures the restatement of the lease obligation over the adjusted cost.

The Group applies the depreciation liabilities in TAS 16 Tangible Fixed Assets while depreciating the right of use asset. The Group determines whether the right of use has been impaired and recognizes any identified impairment losses in accordance with TAS 36 – Impairment of Assets.

Lease Liabiliy

At the effective date of the lease, the Group measures the leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Group's alternative borrowing profit share rate.

The profit share on the lease liability for each period of the lease term is the amount found by applying a fixed periodic profit share rate to the remaining balance of the lease liability. Periodic profit share rate is the Group's borrowing profit share rate.

After the beginning of a contract, the Group remeasures its lease liability to reflect changes in lease payments. The Group reflects the restatement amount of the lease obligation to the financial statements as revised in the presence of the right of use.

15. Explanations on Provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" (TAS 37).

Provisions are recognized when the Bank has a present obligation, legal or constructive, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate can be made of the amount of the obligation.

As per the periodicity principle, a provision is provided for the liabilities arising as a result of past events in the period they arise, if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made.

When a reliable estimate of the amount of the obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, the obligation is considered as a conditional liability and is disclosed in the related notes to the financial statements.

In accordance with the eighth paragraph of Article 6 of the "Regulation on the Procedures and Principles Regarding the Acceptance, Withdrawal, and Statute of Limitations of Deposits, Participation Funds, Escrow, and Receivables," the Parent Bank may set aside a profit-balancing reserve to ensure the stable distribution of profit shares to participation account holders on a period-by-period basis. This reserve is set aside from the profit shares accruing to participation account holders in the relevant period, in accordance with management decision, to mitigate the impact of fluctuations in returns from participation accounts, and is not an element of the Parent Bank's equity. The profit-balancing reserve is recorded in the financial statements under liabilities in the "Other Provisions" account, and the amounts allocated to this reserve are accounted for in the income or loss statement under the other provisions expense account. If the profit-balancing reserve is dissolved or cancelled, these amounts are used solely for distribution to participation account holders and are accounted for in the other operating income account.

16. Explanations on liabilities relating to employee benefits

Defined benefit plans

In accordance with existing social legislation, the Group is required to make severance pay to each employee who has completed over one year of service with the Group and who retires or quits the employment to receive old age or disability benefits, to fulfill the compulsory military service, because of the marriage (for females) or because of the other compulsive reasons as defined in the laws and whose employment is terminated due to reasons other than resignation or misconduct.

The Group's employees are not members of any pension fund, foundations, union or other similar entities.

Defined contribution plans

The Group pays defined contribution plans to publicly administer Social Security Funds for its employees as mandated by the Social Security Association. The Group has no further payment obligations other than this contribution share. The contributions are recognized as employee benefit expense when they are due.

Short term benefits to employees

In accordance with "TAS 19", vacation pay liabilities are defined as "Short Term Benefits to Employees" and accrued as earned.

17. Explanations on taxation

Corporate Tax

While corporate tax which is applied to corporate earnings at the rate of 20% in Türkiye, in accordance with the regulation introduced by the Law No.7456 "On the Formation of Additional Motor Vehicle Tax to Compensate the Economic Losses Caused by the Earthquakes That Occurred on 6 February 2023, Amending Certain Laws and the Decree Law No. 375, the corporate earnings of 2023 and later taxation periods this rate has been determined to be applied as 25% and for the banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies this rate has been determined to be applied as 30%.

This rate is applied to tax base which is calculated by adding certain non-deductible expenses for tax purposes and deducting certain exemptions (like dividend income) and other deductions on accounting income. If there is no dividend distribution, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions No.2009/14593 and No.2009/14594 of the Council of Ministers published in the Official Gazette No.27130 dated 3 February 2009, certain duty rates included in the articles No.15 and 30 of the new Corporate Tax Law No.5520 are revised. Accordingly, the witholding tax rate on the dividend payments other than the ones paid to the nonresident institutions generating income in Türkiye through their operations or permanent representatives and the resident institutions has been changed to 10% from 15% by the Presidential decision published in the Official Gazette No. 31697 dated 22 December 2021. In applying the withholding tax rates on dividend payments to the nonresident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings. In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

75% of earnings generated through sale of equity shares, founders' shares, redeemed shares and preemption rights are exempt from the corporate tax with the conditions that such earnings shall be held in a special reserve account under equity until the end of five years following the year of sale and shall be collected as cash until the end of the following two fiscal years. While 50% of earnings generated through sale of real estate held at least for two years by the institutions were exempt from the corporate tax with the conditions that such earnings shall be held in a special reserve account under equity until the end of five years following the year of sale and shall be collected as cash until the end of the following two fiscal years, in accordance with the regulation introduced by Law No. 7456 "On the Formation of Additional Motor Vehicle Tax to Compensate the Economic Losses Caused by the Earthquakes That Occurred on 6 February 2023, Amending Certain Laws and the Decree Law No. 375, this article has been abolished and has been removed from entry into force of the law dated 15 July 2023. The exemption rate for real estates previously included in the assets of institutions has been determined as 25%.

All earnings generated through transfer of equity shares, founders' shares, redeemed shares and preemption rights by the companies being under legal proceedings or guarantor and mortgage provider of such companies, to banks, financial leasing companies and finance companies or the Savings Deposit Insurance Fund in connection with liquidation of their liabilities and earnings of banks, financial leasing companies and finance companies through sale of immovable part of such assets or other items are exempt from corporate tax at the rate of 50% and 75%, respectively.

As of 31 December 2021, the conditions sought for inflation adjustment in the calculation of corporate tax have been fulfilled, within the framework of the repeated provision of Article 298 of the Tax Procedure Law. These conditions are both the exceed in the increase of Producer Price Index in the last 3 accounting period including current period by 100% and the exceed in the increase in the current period by 10%. However, temporary article 33 has been added on the Tax Procedure Law No. 213 with the regulation made with the Tax Procedure Law and the Law on Change in Corporate Tax Law No. 7352 published in the Official Gazette No.31734 dated 29 January 2022, the application of inflation adjustment in the calculation of corporate tax was postponed to 2023. According to this, the financial statements for the 2021 and 2022 accounting periods, including the provisional tax periods, are not subject to inflation adjustment, and for the 2023 accounting period; are not subject to inflation adjustment as of the provisional tax periods, and the financial statements dated 31 December 2023 are subject to inflation adjustment regardless of whether the inflation adjustment conditions are met or not. Profit/loss difference arising from inflation adjustment in the financial statements are to be shown in previous years' profit/loss accounts and does not affect the corporate tax base. According to Article 17 of the Law No. 7491 on Amendments to Certain Laws and Decree Laws published in the Official Gazette No. 32413 dated 28 December 2023, it has become law that profit/loss differences arising from the inflation adjustment to be made in the 2023 and 2024 accounting periods, including the provisional tax periods, do not be taken into account in determining the income of banks, companies within the scope of the Financial Leasing, Factoring, Financing and Savings Financing Companies Law No. 6361 dated 21 November 2012, payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies. However, Article 34 of Law No. 7571, published in the Official Gazette No. 3318 dated December 25, 2025, and Temporary Article 37 added to Law No. 213 on Tax Procedure, stipulate that financial statements will not be subject to inflation adjustment for the 2025 accounting period, including provisional tax periods, and the 2026 and 2027 accounting periods (or for those assigned special accounting periods, for accounting periods ending in 2026, 2027, and 2028), regardless of whether the conditions for inflation adjustment under Article 298 are met. The provisions in Article 298(Ç) and Temporary Article 32 of the Tax Procedure Law (VUK), within the scope defined in General Circular No. 537 of the VUK, have provided taxpayers with the opportunity for optional revaluation. However, according to Article 298(A) and Temporary Article 33 of the VUK, revaluation under Article 298(Ç) cannot be made in periods where inflation adjustment is mandatory. Therefore, the opportunity for revaluation, which became possible due to the non-application of inflation adjustment for 2025, has been utilized in the current period.

With the Communiqué Amending the General Communiqué on Tax Procedure Law (order no. 537) published in the Official Gazette numbered 32073 on 14 January 2023, the procedures and principles of the articles allowing the revaluation of real estates and depreciation units have been redrawn. By taking into consideration aforementioned Communiqué, the Parent Bank, has been revaluated real estate and depreciation units within its balance sheet by providing conditions in the provisions of Tax Procedure Law's provisional Article 32 and duplicated Article 298/ç until 30 September 2023. Since the financial statements are subject to inflation adjustment as of 31 December 2023, real estates and depreciation units are not subject to revaluation as of 31 December 2023. Corporate tax is calculated by taking into account of real estates and depreciation units' amortized values until 30 September 2023.

According to Law No. 7440 on Restructuring of Certain Receivables and Amending Certain Laws published in the Official Gazette (dated on March 12, 2023, and numbered 32130), corporate tax payers are to be calculating additional tax in order to be indicated in corporate income tax returns of the year 2022. With the regulation of Law No. 5520 on the "Corporate Tax Law" and other tax regulations, an additional tax of 10% will be calculated based on the exemption and deduction amounts subject to deduction from corporate income and the tax bases subject to reduced corporate tax within the scope of Article 32/A of the same law and with the exception regulated in subparagraph (a) of the first paragraph of Article 5 of Law No. 5520, an additional tax of 5% will be calculated on exemption gains obtained from abroad, which are proven to carry a tax burden of at least 15%. The first installment of this additional tax must be paid within the payment period of the corporate income tax, and the second installment is to be paid in the fourth month following this period.

Deferred Tax

For taxable temporary differences that arise between the book value of an asset or liability and its tax base value determined in accordance with tax legislation, the Group is responsible for obtaining financial profit that can be deducted in subsequent periods, in accordance with the provisions of "TAS 12 - Income Taxes", BRSA's explanations and circulars and tax legislation. As far as possible, deferred tax is calculated on deductible temporary differences.

In calculating deferred tax, the time when temporary differences will be taxable/deductible is estimated and legalized tax rates valid as of the balance sheet date in accordance with the applicable tax legislation are used. While deferred tax liability is calculated for all taxable temporary differences, deferred tax assets consisting of deductible temporary differences are calculated provided that it is highly probable to benefit from these differences by obtaining taxable profit in the future. Calculated deferred tax assets and deferred tax liabilities are netted in the financial statements. Tax effects related to transactions directly accounted for in equity are also reflected in equity.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available in the foreseeable future. Where a tax benefit is probable, deferred tax assets are calculated based on deductible tax losses. The Group has recognized a deferred tax asset based on the assumption that the deductible tax losses detailed in Section 5 Note 1.1.15 are recoverable.

18. Explanations on additional disclosures on borrowings

Financial liabilities, held for trading and derivative financial liabilities classified as at fair value through profit/loss are at fair value; All other financial liabilities are valued at their discounted values using the effective internal yield method in the periods following their recording, including transaction costs.

19. Explanations on share certificates issued

If the shares issued in capital increases are issued at a price higher than their nominal value, the Group accounts the difference between the issue price and nominal value in equity as "Share Issuance Premiums".

20. Explanations on acceptances and availed drafts

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in off-balance sheet accounts.

21. Explanations on government grants

None (31 December 2025 – None).

22. Explanations on segment reporting

The Group carries out its activities in three main departments: Retail Banking, Corporate Banking, Treasury and International Banking. Each department provides services with its own products and activity results are monitored on the basis of these departments. Reporting by business segments is presented in Chapter Four.

23. Explanations on other matters

Article 4 of the Banking Law lists "acceptance of participation funds" among the activities of Participation Banks. Participation funds are divided into two categories: special current accounts and participation accounts. Special current accounts are demand deposit funds. The profit or loss arising from their operation belongs entirely to the bank. Participation accounts are opened within the framework of mudarabah (labor-capital partnership). Participation accounts can be opened based on a profit-sharing agreement or an investment agency agreement to be concluded with public institutions and organizations, funds, and legal entity clients. In participation accounts based on a profit-sharing agreement, the profit earned is distributed according to the profit-sharing ratio initially agreed upon by the parties. The relevant sharing ratio is determined according to the amount and maturity. In participation accounts based on an investment agency agreement, the portion of the income earned up to the maximum estimated profit ratio belongs to the client, and the portion above that belongs to the Parent Bank. Income generated from loans corresponding to the total funds in the participation accounts of Parent Bank customers is divided into Parent Bank and Customer shares according to the rules mentioned above and transferred to the accounts in accordance with their maturity periods. Our customers receive a profit share equal to the difference between the unit value rate in the pool type they joined at the time of initial account opening and the unit value at the end of the maturity period.

Income that does not comply with Islamic finance principles is determined within the scope of Articles 1 and 2 of the “Income Not Compliant with Islamic Finance Principles and Their Disposal Standard” published by the Advisory Board of the Turkish Association of Participation Banks. In accordance with Article 4 of the Standard, such non-compliant income is liquidated through donations to social welfare and public benefit areas from which the Bank will not derive any direct or indirect economic benefit, no later than the following calendar year. Non-compliant income is accounted for in the relevant income accounts according to its nature. Where the amount to be liquidated can be reliably measured at the end of the period, it is accounted for in accordance with IAS 37 “Provisions, Contingent Liabilities and Contingent Assets”.

SECTION FOUR

INFORMATION RELATED TO CONSOLIDATED FINANCIAL POSITION AND RISK MANAGEMENT OF THE GROUP

1. Explanations on Consolidated Equity Items

Total capital and Capital Adequacy ratio have been calculated in accordance with the "Regulation on Equity of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy of Banks". As of 30 September 2026, Group's total capital has been calculated as TL 4,389 (31 December 2025 - TL 2,540), capital adequacy ratio is 26.6% (31 December 2025 – 23.1%).

Components of Consolidated Capital

Approaches applied to assess the adequacy of internal capital requirement in terms of current and future activities

Within this scope, capital structure is reviewed as based on the frame of the activities and risks exposed to, and the internal capital requirement, probable to occur within the direction of targets and strategies of the Group is evaluated. This evaluation includes profit share rate risk, concentration risk, liquidation risk, reputation risk, residual risk, country risk and strategic risk arising of the banking books as well as market, credit, and operational risks. Capital requirement internal evaluation is evaluated to be a developing process and the development areas for the future period are determined and plans are prepared.

2. Explanations on consolidated currency risk

Foreign currency risk represents the Group's exposure to loss due to the changes in foreign currency (FC) exchange rates. According to the standard method, all foreign currency assets, liabilities and forward foreign exchange transactions of the Group are taken into account when calculating the capital liability subject to exchange rate risk. The "Standard Method" method used in legal reporting is used to measure the exchange rate risk that the Group is exposed to.

The Group monitors daily the designated limits set by the Board of Directors and additionally observes the possible value changes in foreign currency positions. The limits are determined and followed both for the net foreign currency position and for the cross-exchange rate risk within the position.

The announced current foreign exchange buying rates of the Parent Bank as of reporting date and the prior five working days are as follows (full TL):

	23/09/2026	24/09/2026	25/09/2026	28/09/2026	29/09/2026	Balance Sheet Valuation Rate
Usd	48.7872	48.8434	48.9169	48.9620	48.9882	48.9701
Euro	55.7535	55.5801	55.7016	55.7167	55.6376	55.5704
Gold	6,749.78	6,691.22	6,714.56	6,526.33	6,537.06	6,601.70

The simple arithmetic averages of the major current foreign exchange buying rates of the Parent Bank for 30 days preceding the balance sheet date are as follows (full TL):

	FC Purchase Rate
Usd	48.6378
Euro	56.0204
Gold	6,765.35

Sensitivity to exchange rate risk

The Group is exposed to exchange rate risk in Euro, USD and other foreign currencies. The table below shows the Group's sensitivity to a 10% increase in USD, Euro and other foreign currencies.

	% Increase in the exchange rate	Effects on profit/loss		Effects on equity	
		Current Period	Prior Period	Current Period	Prior Period

3. Explanations related to stock position risk

Relation of risks with gains accounted under equity and analyzing according to their aims including strategic reasons and the accounting policies applied and general information about valuation techniques with assumptions in this application, the elements that manipulate valuation and important changes

While the Group's shares not traded on the stock exchange are accounted for at fair value, they are also recorded at cost when fair value cannot be reliably measured. The shares of Katılım Finans Kefalet A.Ş amounting to TL 20 (31 December 2025 – TL 20), since the share ratios in the partnerships are below 10% are classified as financial assets at fair value through other comprehensive income and the Group does not have a significant influence on these entities.

Carrying value of share investments, for fair value and quoted securities, comparison with market value if market value is significantly different from fair value

	Current Period			Prior Period		
	Balance Sheet Value	Fair Value	Market Value	Balance Sheet Value	Fair Value	Market Value
Not quoted on stock	20	-	20	20	-	20

Realized gains/losses, revaluation surplus, unrealized gains/losses on equity securities and results included in core and supplementary capitals

None.

4. Liquidity risk management, liquidity coverage ratio and net stable funding ratio

The liquidity risk of the Group is the risk of being unable to fulfill its payment obligations on time due to not having enough cash sources or cash inflows to finance its cash outflows fully and on time due to cash flow instabilities.

Funding Liquidity Risk: It is a kind of risk which does not meet the any unexpected loss and non defaulting debts and liabilities.

Market Liquidity Risk: It is a kind of risk which consists of the position that cannot be sold without affecting market price due to insufficient market depth or market conditions' deterioration or that cannot be completed with the position of market price for any reasons.

Liquidity risk is managed by the Asset Liability Committee (ALCO) and relevant business units within the framework of the issues regarding the management of liquidity risk included in the Regulation on Risk Management Policies approved by the Board of Directors and the Risk Appetite Regulation. In liquidity risk management, the measures to be taken and the practices to be implemented are determined by taking into account normal economic conditions and stress conditions. The bank defines liquidity risk, measures and monitors risks with liquidity risk measurement methods in accordance with international standards and presents them to the relevant parties periodically. An Emergency Funding Plan has been prepared to regulate the procedures and principles for the Group to ensure and maintain an adequate liquidity level under stress conditions.

Information on risk capacity of the Group, Responsibilities and structure of liquidity risk management, the Group's internal liquidity risk reporting, communication between the Board of Directors and business lines on liquidity risk strategy, policy and application

The practices and responsibilities regarding liquidity risk are determined in accordance with the Treasury Regulation approved by the Board of Directors. The Group's liquidity policy is to have a liquidity buffer at a level that will cover liabilities under all economic conditions and to maintain the necessary liquidity at the lowest cost. It also has limits available for use at financial institutions.

In the weekly ALCO meetings attended by senior management, indicators regarding the liquidity situation are examined and liquidity risk is addressed. Additionally, the Board of Directors is informed through the Audit Committee. In order to manage liquidity risk prudently, it is necessary to know what kind of problem the mismatch between assets and liabilities will create under what economic conditions and the cost it will bring. Liquidity risk management aims to measure the Group's current and future liquidity position prudently and proactively, taking into account the currency types and maturities of assets and liabilities. Risk Management Department monitors the limits regarding liquidity risk determined by the Board of Directors. The Treasury Management Department manages funding and liquidity risk to prevent funding insufficiency at any time or from any source and makes regular reports to the ALCO regarding the Group's liquidity position. Risk Management Directorate monitors the liquidity coverage ratio and reports the results to the BRSA.

Information on the centralization degree of liquidity management and funding strategy and the functioning between the Group and the Group's subsidiaries

The Group's liquidity management is carried out by the Asset Liability Committee.

Information on the Group's funding strategy including the policies on funding types and variety of maturities

The bank aims to ensure that current and participation accounts are widespread and stable, and that the fund sources used are diversified and long-term. Risk indicators regarding liquidity and issues such as the ratio of liquid assets to total assets, the ratio of participation funds to loans, and the concentration within the collected funds are closely monitored.

Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Group's total liabilities

The Group's TL liquidity is managed through interbank transactions. Foreign currency liquidity is kept in interbank transactions and in correspondent bank accounts within limits.

Information on liquidity risk mitigation techniques

Liquidity risk is achieved through practices such as keeping sufficient high-quality liquid asset stock at a level to cover the bank's cash outflows, diversifying funding sources in order to reduce liquidity risk concentrations, reducing the maturity difference between assets and liabilities through maturity gap analysis, and providing at least a certain part of the fund resources through collected funds aims to implement mitigation techniques.

Information on the use of stress tests

The purpose of the stress test is to determine the sources of possible liquidity weaknesses and whether the current on- and off-balance sheet positions are acted in accordance with the liquidity risk appetite. While developing stress test analyses, it includes scenarios that take into account systemic crisis, bank crisis and both situations together. Different threshold levels are determined for the percentage of the predicted deficit covered by the buffer in the stress test. The Stress Test is aligned with Group's risk appetite framework, ICAAP, budget and other processes and integrated with risk appetite metrics.

General information about the Contingency Funding Plan

In order to establish the necessary principles for identifying and managing possible serious liquidity problems, the Liquidity and Emergency Funding Plan was prepared and approved by the Board of Directors. The plan ultimately aims to protect current and participation account holders, creditors and shareholders. The basic indicators of the Emergency Funding Plan have been determined, and the plan is put into practice in case of unexpected developments in the liquidity situation or other indicators are triggered. Asset Liability Committee is responsible for the implementation of the plan.

Quantitative explanations of the net stable funding rate

As of 30 September 2026, the Group's net stable funding ratio stood at 140.72% (31 December 2025 – 145.85%). Considering the amounts to which the consideration rate has been applied, the main capital item with the highest consideration rate within the scope of the legislation constitutes 20% of the existing stable fund amount (31 December 2025 - 16%). The retail person and retail customer participation fund is the other important element, accounting for 46% of the current stable fund amount (31 December 2025 - 49%).

5. Explanations on leverage ratio

The leverage ratio table prepared in accordance with the communiqué "Regulation on Measurement and Assessment of Leverage Ratios of Banks" published in the Official Gazette no. 28812 dated 5 November 2013 is presented below.

As of the balance sheet date, the Group's leverage ratio, calculated based on the arithmetic average of the values found at the end of the months in the previous three-month period, was 9.5% (31 December 2025 - 9.6%). While the main capital increased by 69%, the total risk amount increased by 71%.

	On-balance sheet assets [1]	**Current Period**	**Prior Period**
1	On-balance sheet items (excluding derivative financial instruments and credit derivatives but including collateral)	40,842	23,866
2	(Assets deducted in determining Tier I Capital)	(2,306)	(1,953)
3	Total on-balance sheet risks (sum of lines 1 and 2)	**38,536**	21,913
	Derivative financial instruments and credit derivatives		-
4	Replacement cost associated with all derivative instruments and credit derivatives	-	-
5	Add-on amounts for PFE associated with all derivative instruments and credit derivatives	92	17
6	Total risks of derivative financial instruments and credit derivatives (sum of lines 4 to 5)	**92**	17
	Securities or commodity financing transactions (SCFT)		-
7	Risks from SCFT assets (excluding on-balance sheet)	-	-
8	Risks from brokerage activities related exposures	-	-
9	Total risks related with securities or commodity financing transactions (sum of lines 7 to 8)	-	-
	Other off-balance sheet transactions		-
10	Gross notional amounts of off-balance sheet transactions	6,980	4,724
11	(Adjustments for conversion to credit equivalent amounts)	-	-
12	Total risks of off-balance sheet items (sum of lines 10 and 11)	**6,980**	4,724
	Capital and total risks		-
13	Tier I Capital	4,320	2,555
14	Total risks (sum of lines 3, 6, 9 and 12)	45,608	26,654
	Leverage ratio		
15	**Leverage ratio %**	**9.5**	**9.6**

[1]The amounts in the table represent three-month averages.

6. Explanations on the activities carried out on behalf and account of other persons

The Group does not perform purchases, sales, and custody services in the name of others. The Group has no fiduciary-based transactions.

7. Explanations on hedge accounting practices

None (31 December 2025 – None).

8. Explanations on risk management

Group's risk management approach

The purpose of risk management policies is to ensure the identification, measurement, reporting, monitoring and control of risks incurred on the basis of risk type as a result of the Group's activities.

When establishing internal regulations regarding risk management, at least the following issues are taken into account:

- Strategy, policy and implementation procedures of the Group's business lines,
- Compliance with the volume, nature and complexity of the bank's activities,
- The bank's risk strategy and the level of risk it can take,
- The bank's risk monitoring and management capacity,
- The bank's past experience and performance,
- Expertise levels of the managers of the departments carrying out the activities on issues related to their fields,
- Obligations foreseen in the law and other relevant legislation.

Risk management activities include the risks incurred and the risks arising from transactions carried out with the risk group to which the Group belongs; It consists of timely and comprehensive definition, measurement, monitoring, control and reporting activities.

The procedures and principles established for the proposal, evaluation, approval, announcement, monitoring and auditing of risk limits within the Group are approved by the Board of Directors. Risk limits are determined as part of the risk appetite structure, taking into account the size of the Group within the financial system, and clearly associating it with the amount of loss and the amount of capital allocated.

Board of Directors is responsible for ensuring that the bank's risk profile does not exceed the risk limits and that the realized values are monitored by the Group's Senior Management. Limit usage is closely monitored, and limit exceedances are immediately reported to the Senior Management so that necessary measures can be taken.

Limit excess exceptions are defined within the risk appetite structure and the rules to which the exceptions will be subject are determined in writing. Early warning limits and the procedures and principles to be applied, including carrying, reducing, transferring or avoiding the risk in cases where these limits are exceeded, are determined by the Board of Directors. Risk limits are regularly reviewed within the framework of current developments and adapted according to changes in the Group's strategy.

Risk appetite structure expresses the level of risk that the Group wants to carry in order to achieve its goals and strategies, taking into account its risk capacity. Risk appetite; Risk types and main indicators are divided and allocated to other levels deemed necessary and approved by the Board of Directors. The risk appetite structure is reviewed when deemed necessary, at least once a year.

The bank can be applied reliably and with integrity to measure the quantifiable risks it is exposed to and to evaluate the non-quantifiable risks; it establishes an effective systematic structure with internal regulations compatible with its structure, product types and fields of activity. The following points are taken into account when determining the methods or models to be used in risk measurement:

Risk Management System is prepared for the purpose of systematically managing the risks to which the Group is exposed; it refers to the Board of Directors, Audit Committee, Asset-Liability Committee and Risk Management Presidency (“RYB”). The Board of Directors owns the Risk Management System in the Group; It ensures the establishment of an effective, adequate and appropriate risk management system within the bank and the continuity of this system. The main purpose of the Group's Risk Management System is to monitor, keep under control and, when necessary, change the risk-return structure of the Group's future cash flows and accordingly the nature and level of activities, to ensure that risks are identified, measured, monitored and controlled.

Main guidelines for liquidation process of uncollectible loans and other receivables

Loans and other receivables, which were deemed uncollectible according to the "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published in the Official Gazette No. 26333 dated 1 November 2006 and for which a full impairment provision has been made, are written off as per the decision of the Group top management.

Information on the write-off policy

The Group's write off policy is to write-off the loan receivables that have been already transferred to legal follow-up and fully provided for and for which there is no possibility of collection through legal process and for which there is no collateral. Such loans are written off as per the decision of top management.

None (31 December 2025 – None).

1.8 Information on subsidiaries (Net)

Although the Parent Bank retains control over the capital and management of its non-financial subsidiaries, Hayat Fintek Çözümleri A.Ş. does not consolidate its subsidiary because it does not comply with the definition of financial partnership specified in the "Communiqué on the Arrangement of Consolidated Financial Statements of Banks" published in the Official Gazette dated 8 November 2006 and numbered 26340. The Parent Bank consolidates the financial statements of its subsidiary Hayat Varlık Kiralama A.Ş. using the full consolidation method.

	Name	Address (City/Country)	The Parent Bank's share percentage – if different, voting percentage (%)	Bank risk group share ratio (%)
1	Hayat Fintek Çözümleri A.Ş.	Istanbul/Türkiye	100	100
2	Hayat Varlık Kiralama A.Ş.	İstanbul/Türkiye	100	100

Total	**79**	**46**	**50**	**25**

Information on the changes in agreements and new obligations originating from these

None (31 December 2025 – None).

Information on Operational Leases

The leasing transactions, in which all risks and benefits of the leased asset are held by the lessor, are classified as operational leases. There are no significant commitments regarding the changes at the operational lease agreements. The payments related with operational leases are recognized as expense in the income statement during the period of the agreement in equal installments.

2.7. Information on hedging derivative financial liabilities

None (31 December 2025 – None).

2.8. Information on provisions

Information on provisions related with foreign currency difference of foreign indexed loans

None (31 December 2025 – None).

Information on other provisions

	Current Period	Prior Period
Expected Credit Loss for Non-Cash Loans	7	4
Provision for Profits will be Allocated to Participation Accounts	54	35
Others	5	1
Total	**66**	**40**

Information on provisions for employee benefits

The provision for employee benefits in the balance sheet includes severance pay obligations amounting to TL 10 (31 December 2025 – TL 5), leave pay provision amounting to TL 19 (31 December 2025 – TL 16).

Under the Turkish Labor Law, the Group is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or retires or earns the right to retire.

The reserve has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of its employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation for such benefits. Accordingly, the following actuarial assumptions were used in the calculation of the total liability.

	Current Period	Prior Period
Discount rate (%)	4.50	4.50
Inflation rate (%)	23.75	23.75

Movements in the reserve for employment termination benefits during period are as follows

	Current Period	Prior Period
Balance at the beginning of the period	5	6
Provisions recognized during the period,net	5	(1)
Balances at the end of the period	**10**	**5**

2.9. Explanations on tax liability

Information on current year tax liability

The group has no corporate tax liability as of the balance sheet date (31 December 2025 – None).

Message from the Chairman of Board

Dear Stakeholders,

During the first nine months of 2026, the global economy continued to navigate the effects of conflicts in the Middle East on energy and commodity prices, persistent uncertainty in international trade, and fluctuations in financial conditions. While geopolitical risks continued to weigh on the global inflation outlook and growth expectations, technology-driven investment and resilience in certain economies supported economic activity. In its July 2026 World Economic Outlook Update, the International Monetary Fund (IMF) projected global growth of 3.0% in 2026 and 3.4% in 2027. In its September 2026 Interim Economic Outlook, the Organisation for Economic Co-operation and Development (OECD) forecast global growth of 2.9% in 2026 and 3.0% in 2027, highlighting risks stemming from energy prices, inflationary pressures, and geopolitical developments.

The Turkish economy maintained a moderate growth trajectory amid continued global uncertainty. According to data from the Turkish Statistical Institute (TurkStat), gross domestic product increased by 2.3% year-on-year in the second quarter of 2026, while seasonally and calendar-adjusted GDP grew by 1.1% quarter-on-quarter. The Medium-Term Program for 2027–2029, announced in September 2026, projected growth of 3.3% for 2026. Accordingly, economic rebalancing and the pursuit of stable growth remained key elements of the policy framework.

Combating inflation and establishing lasting price stability remained among the principal economic policy priorities in the third quarter. According to September data released by TurkStat on October 5, 2026, consumer prices increased by 1.84% month-on-month, while annual inflation stood at 29.73%. In its August 2026 Inflation Report, the Central Bank of the Republic of Türkiye (CBRT) raised its year-end 2026 inflation forecast to 28%, underscoring the impact of developments in energy, food, and other commodity prices on the inflation outlook. The updated Medium-Term Program projected year-end inflation of 28.4% for 2026.

At its Monetary Policy Committee meeting on October 22, 2026, the CBRT decided the one-week repo auction rate at 36% and continued its tight monetary policy stance, taking into account the underlying trend of inflation and domestic demand conditions. The Committee drew attention to upside risks to the inflation outlook arising from elevated energy prices amid geopolitical developments and maintained its data-driven approach to achieving price stability.

At Hayat Finans, we have resolutely maintained our pioneering position in digital banking during this period of intensified global and local uncertainties. As of September 30, 2026, our total assets reached 40 billion TL, our collected funds amounted to 25 billion TL, and our disbursed funds reached 22 billion TL. We continue to invest uninterruptedly in our digital channels and AI-powered solutions to increase financial inclusion and make the customer experience simple, fast, and accessible.

In 2026, guided by our principles of transparency, reliability, and sustainability, we will continue to develop value-added solutions to meet the expectations and needs of all our stakeholders. With the strong support of Hayat Holding, we aim to further strengthen our position in the sector by taking innovative steps in digital banking.

I would like to extend my heartfelt thanks to all our employees, business partners, and customers for the trust and support they place in us. With the firm belief that we will achieve many more successes together, I wish 2026 to be a year of health, peace, and prosperity for all our stakeholders.

Best Regards,

Ahmet Yahya KİĞILI
Chairman of Board

Message from CEO

Dear Stakeholders,

During the first nine months of 2026, the global economy was shaped by the impact of conflicts in the Middle East on energy markets and supply chains, as well as uncertainty surrounding monetary policies. In its July 2026 World Economic Outlook Update, the International Monetary Fund (IMF) projected global growth of 3.0% in 2026 and 3.4% in 2027 and forecast global headline inflation of 4.7% for 2026. In its September 2026 Interim Economic Outlook, the Organisation for Economic Co-operation and Development (OECD) projected global growth of 2.9% in 2026 and 3.0% in 2027. These developments underscore the need to monitor global risks closely and the importance of prudent financial management.

The Turkish economy grew by 2.3% year-on-year in the second quarter of 2026. The Medium-Term Program for 2027–2029, announced in September, projected economic growth of 3.3% and year-end inflation of 28.4% for 2026. As of September 2026, consumer prices had increased by 1.84% month-on-month and 29.73% year-on-year. At its Monetary Policy Committee meeting on October 22, 2026, the Central Bank of the Republic of Türkiye (CBRT) maintained the one-week repo auction rate at 36%, emphasizing its commitment to a data-driven, prudent and tight monetary policy stance in view of the inflation outlook and expectations.

Amid changing economic conditions, our Bank remains focused not only on balance sheet growth but also on balance sheet quality, effective liquidity and asset-liability management, a balanced funding structure, and maintaining an appropriate risk-return profile. In conducting our activities, we continue to prioritize financial discipline, robust internal control mechanisms, and sustainable growth.

As of September 30, 2026, our total assets have increased to 40 billion TL, our collected funds to 25 billion TL, and our disbursed funds to 22 billion TL. We continue to invest in our digital channels and AI-powered solutions to increase financial inclusion and make the customer experience simple, fast, and accessible.

As Turkey's first digital bank, we continue to transform the customer experience into an accessible and seamless journey through end-to-end digital processes. Alongside our achievements in retail banking, we contribute to the real economy through innovative corporate banking solutions. In line with our vision to redesign banking through a digital ecosystem, our Hayat Pay platform has simplified users' daily payments and opened the door to a new era in financial technologies. By scaling our investments in artificial intelligence in 2026 as well, we aim to make the customer experience more efficient, secure, and personalized.

Within the framework of our sustainable growth strategies, we will continue to leverage technology more effectively to contribute to Turkey's economic and social development, keep customer satisfaction as our top priority, and set new standards in banking with our innovative products and services.

I would like to extend my gratitude to all our employees, business partners, investors, and valued customers who place their trust in us and contribute to our success.

Sincerely,

Şükrü Tuğbay KUMOĞLU
CEO

Assessment of Financial Position, Performance and Future Prospects
